

# MULTIPLE CHOICE TEST

**What is the Role of State Government?**

*Take over our communities and our schools*

*Support our communities and our schools*

With the economic recession and Michigan's antiquated revenue system many school districts, cities, townships and counties are in financial distress. The state has an important role supporting our communities.

The key word is "support" not takeover. A series of bills moving quickly through the legislature provide for state-appointed Emergency Financial Managers with all encompassing powers to take over our communities and our schools.

In addition to wiping out elected school boards and city councils, voiding all contracts including collective bargaining agreements, and having complete academic control, this legislation provides the Emergency Financial Manager with the power to take "any other actions considered necessary....to achieve the objectives of [their] plan." These actions must remain in place for three years after the EFM leaves and, by the way, the EFM cannot be challenged in court for anything s/he does.

**STATE OF MICHIGAN: SUPPORT OUR COMMUNITIES. DO NOT TAKE US OVER.**
