

Protect those things that Michigan Working Families are thankful for!

**Decent Wages
Health Care
Retirement Security**

“Right to Work” hurts all of Michigan’s working families. Workers in states with so-called “right to work” laws have a consistently lower quality of life than in Michigan—lower wages, higher poverty, less access to health care—according to data from the U.S. Department of Labor and the U. S. Census. Why should Michigan adopt a losing strategy that lowers our standard of living?
